PERSONAL PROJECTS

Legato [[github](#)] [[website](#)] | Rails web application connecting classical music enthusiasts with local musicians. Built and shipped within 10 days during Le Wagon's Full-Stack Web Developer Bootcamp.

Memory Game [[github](#)] [[website](#)] | Classic memory game written in ReactJS.

My Portfolio [[github](#)] [[website](#)] | My personal website built using Gatsby/ReactJS, customized with SCSS, animations and various React libraries

Image Repository [[github](#)] | Ruby on Rails app enabling users to upload their photos and browse images uploaded by other users

EDUCATION

Le Wagon, Montréal

Full-Stack Web Developer, September 2020

Intensive coding bootcamp learning HTML, CSS, Bootstrap, JavaScript ES2015, SQL, git, GitHub, Heroku and Ruby on Rails. Designed, implemented and shipped to production a clone of AirBnB and a Rails prototype of Legato (<https://www.legatoconcert.com/>).

University of Szeged, Hungary

Bachelor Degree in Finance and Accounting, December 2010

PROFESSIONAL HISTORY

General Ledger Accountant | *Viacom CBS*

Jan 2015 - Jan 2019

- Participated in the migration of GL accounting tasks of the GSA (Germany, Switzerland, Austria) region to the Hungarian shared service center.
- Streamlined the month-end closing processes to increase efficiency and the quality of supporting calculations and documentations, successfully cut down the time requirement of the closing process approximately by 40%.
- Trained and supervised the work of junior colleagues and interns.

Accountant | *Process Solutions Kft.*

October 2011 - December 2014

- Performed AR and AP accounting tasks and participated in the month-end closing, prepared statutory financial statements and monthly/quarterly management reports
- Liaised with auditors and supplied them with supporting calculations and documentations to make the year-end audit process efficient
